

DRAFT RiverConnect Paths Master Plan

The Shepparton and Mooroopna communities have identified a desire for increased linkages between the adjoining cities and a need to establish a greater connectedness to each other and to the natural environment.

The overall objective of the project is to develop a master plan which meets community and local agency needs and expectations regarding connectedness and accessibility to the floodplain environments.

Specific objectives include:

- An increase in new and upgrades to existing infrastructure within the Shepparton Regional Park
- An increased connectedness of communities within Shepparton and Mooroopna
- An increase in tourism opportunities
- Improved community wellbeing
- An increased opportunity for a greater appreciation and understanding of the natural and cultural environments
- Provide Council with a guiding document to drive implementation

The DRAFT RiverConnect Paths Master Plan includes:

- Concept alignment routes
- Issues and opportunities breakdown
- Proposed path typologies and signage strategy
- Strategies for implementation
- Priorities
